

BOHS P401 Qualified Bulk Analyst

We are a quality focused company looking to welcome a qualified Bulk Analyst to join our friendly and experienced laboratory team.

Santia is one of the leading Asbestos and Construction Design Management consultancies in the UK. Due to growing customer demand, we are looking to expand the capacity of our laboratory services. Santia are a progressive, ambitious and growing company who recognise that people are our greatest asset. We live and breathe our values and continually invest in training and development to empower our people to succeed.

Our experienced laboratory team have participated in the HSL's Asbestos in Materials (AIMS) validation scheme for the last 5 years as a consequence of our outstanding track record.

We are commercially and operationally prepared to face and implement the changes proposed by the forthcoming legislative revision.

We are looking for an individual who possesses the following experience, qualifications and attitude to enhance our established team:

- BOHS P401 Qualified
- Demonstrated experience working as a Bulk Analyst
- Previously participated in QC / AIMS schemes
- Possesses a "can do" attitude who puts quality before quantity
- Willing to demonstrate a flexible attitude to working hours should weekend work be requested
- Good attention to detail in completion of material assessment records / test data sheets / certificates of bulk analysis
- Timely provision and completion of systemised management information / booking in of samples as required
- Embraces change and is quick to learn new skills

Rewards for your hard work

- Competitive rate of pay
- Market leading overtime rates
- Training and development
- Medical cover
- Pension
- Uniform
- Additional holidays awarded for length of service
- Employee recognition scheme

If you believe you have the skills and attributes we are looking for, please apply with a CV and covering letter for consideration.
